Experience

INA Webtech
Frontend Developer | Freelance (contract)

Jun 2023 - Present

Kolkata, West Bengal

- Built scalable React applications using React.js, TypeScript, and Next.js, improving UI performance through optimized rendering and component design
- Developed reusable UI components and design patterns, reducing development time and improving code consistency across features
- Integrated REST and GraphQL APIs for dynamic, data-driven applications using Axios and Fetch
- Implemented global state management using Redux Toolkit and Context API for complex application flows
- Optimized performance using lazy loading, code splitting, and memoization, enhancing user experience
- Collaborated in Agile environments using Jira and Git, ensuring timely delivery of features and smooth sprint cycles
- Leveraged AI tools (Claude, GitHub Copilot) to accelerate development, improve code quality, and streamline debugging workflows

CBNITS
Software Developer

Oct 2022 - May 2023

Kolkata

- Developed responsive and cross-browser compatible UIs using React.js, TypeScript, HTML5, CSS3, and Tailwind CSS
- Built reusable components and modular UI architecture, improving scalability and maintainability
- Integrated REST APIs and handled asynchronous data flows using JavaScript (ES6+), Promises, and async/await
- Managed component-level and shared state, ensuring smooth data flow across the application
- Optimized UI performance by reducing unnecessary re-renders and improving rendering efficiency
- Refactored legacy codebase, improving readability, maintainability, and reducing technical debt
- Implemented form handling and validation, improving user input reliability and UX
- Collaborated with backend developers and designers, delivering end-to-end features in Agile sprints
- Used Git for version control, managing branches, pull requests, and code reviews
- Ensured cross-browser compatibility and responsive design, delivering consistent user experience across devices and screen sizes

Chegg India Pvt Ltd
Subject Matter Expert | Freelance

Sep 2017 - Sep 2022

New Delhi

- Delivered technical solutions
- Improved problem-solving skills
- Maintained high accuracy and quality standards, ensuring reliable and consistent outputs
- Handled diverse problem sets from global users, enhancing adaptability and technical depth
- Improved logical thinking and debugging skills, identifying edge cases and optimizing solutions
- Documented clear and structured explanations, making complex solutions easy to understand

Cognizant Technology Solutions
Programmer Analyst Trainee

Jul 2016 - Aug 2017

Pune

- Worked on enterprise-level applications, supporting development and maintenance in production environments
- Analyzed and debugged application issues, improving system stability and reducing downtime
- Collaborated with cross-functional teams, including QA and backend teams, to resolve defects efficiently
- Participated in code reviews and testing cycles, ensuring adherence to coding standards and quality practices
- Maintained and enhanced existing modules, improving performance and functionality
- Followed SDLC and Agile practices, contributing to timely delivery of project milestones
- Worked with databases and backend systems, understanding data flow and integration points
- Documented technical changes and fixes, improving team knowledge sharing and maintainability
